Wheelchair Rugby Comes to India

Vicky Sigworth is a woman on a mission. Mrs. Sigworth is scouring the world to obtain used rugby chairs with the purpose of introducing wheelchair rugby in India. "We realize athletes often keep their old chairs for new players, but especially useful to us would be those chairs no longer 'legal' for play here in the west, but still very good for starting up the sport in places like India and other nearby nations. Currently her quest has resulted in eight usable rugby chairs for India. Mrs. Sigworth's cause is personal. Her son was injured while rock climbing in India, and required extensive rehab in that country in his first weeks following his injury.

While an observer along with her husband here at the 2008 Canada Cup, Mrs. Sigworth said anyone who can help their cause can contact her at vicky.yfc@snet.net or by phone at (203) 315-1034. The Sigworths reside in Hamden, CT, USA. We all wish them well in this venture.
